Dear FCC:

I am writing to complain about the proposed changes to the Universal Service Fund and requesting that the FCC investigate this matter further before changing the current policy. Your proposed \$1.00 per month charge for all wireless phones will directly impact my ability to retain my wireless service.

I do not think it is fair to charge EVERYBODY \$1.00 dollar regardless of how they use their wireless phone, especially for a low-volume user that relies on wireless service for safety and security, not interstate calls. The current policy is fair, based on interstate usage, and should be left alone. Please do not penalize us. Keep this fair.

If the FCC cannot manage their money any better than they are now then they need to get a real professional manager in there to fix what ever problem that you have. I now pay the same federal tax rate that was in effect during world war two, and there are not as many people guarding my country as there were at that time. SO where is all that money going ??? I think that you all need to get a GRIP on where the money is going !!!!! Harry A. Simpson

Thank you for your prompt attention to this matter. Please provide a written response indicating the status/resolution of this matter.

Very truly yours,

Harry A. Simpson
